

PHOBIA  
ARCHIVE

**Phobia Archive, l'ultimo progetto lanciato da Vision of Super, è un curioso mix tra fashion e streetwear. La collection vede l'uso del fulmine in diverse versioni cromatiche, simbolo di velocità, forza e luminosità. La scelta di questo design è riconducibile al desiderio di Dario Pozzi, fondatore del progetto, di trasmettere "energia" positiva a tutta la community degli amanti dello streetwear e non solo.**

**La collaborazione con Australian nasce dalla passione condivisa per il Padel, lo sport più cool del momento in Italia. Abbiamo ideato per questo un kit street/active composto da pantaloni della tuta, felpa con cappuccio, t-shirt e naturalmente, una divisa ufficiale da Padel. Dalla produzione alla distribuzione il progetto fra i due brand prosegue in modo sinergico per garantire un ampio posizionamento di prodotto nei principali retailers italiani. La collaborazione segna l'entrata ufficiale in collezione di una linea Australian per il Padel e la prima di una serie di novità dedicate a questo nuovo trend.**

***Phobia Archive, the latest project launched by Vision of Super, is a curious mix between fashion and streetwear. The collection sees the use of lightning in different chromatic versions, a symbol of speed, strength and brightness. The choice of this design is attributable to the desire of Dario Pozzi, founder of the project, to transmit positive "energy" to the whole community of streetwear lovers and beyond.***

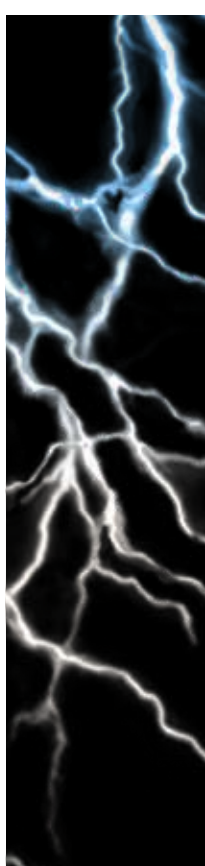

***The collaboration with Australian born from the shared passion for Padel, the coolest sport in Italy at the moment. We have created a street/active kit consisting of sweatpants, hoodie, t-shirt and of course, an official Padel uniform.***

***Started from the production to distribution, the project between the two brands continues in synergy to ensure a broad positioning of the products in the main Italian retailers.***

***The collaboration marks the official entry into the collection of an Australian Padel line and the first of a series of novelties dedicated to this new trend.***
